Data Sheet

Easy automatic backup for your digital life on your computer, mobile devices and the cloud

The Seagate® Backup Plus desktop drive for Mac® simplifies backup for consumers who want to help protect their entire digital life locally, in the cloud, or from their mobile devices and social networks. The drive is formatted for Mac and compatible with Time Machine backup software right out of the box. High-speed USB 3.0 and 2.0 connectivity offers plug-and-play functionality on your Mac. Install the HFS+ driver for PC, and you can use the drive interchangeably between Windows and Mac computers without reformatting.

Via the Seagate Dashboard software, you are provided with tools for mobile, cloud and social media backup. Install the free Seagate Mobile Backup app on an iOS or Android mobile device to back up all of the pictures and videos from the device to your external drive or the cloud.

The Backup Plus desktop drive for Mac includes 200GB of cloud storage with OneDrive® for 2 years for added protection and on-the-go access for your most important files.¹ Back up to the cloud using the OneDrive client or Seagate Dashboard. Additional cloud connectivity is available for Google Drive and Dropbox, as well as social media backup for your Facebook and Flickr accounts.

For your videos and photos, the Lyve app recognizes your Backup Plus drive as a photo and video destination. Free up your phone's memory by off-loading files to your drive, and you can access them anywhere in a single, organized library with the Lyve mobile and desktop apps.

¹ OneDrive service available for 2 years after activation. Must be activated by June 30, 2017. May not be available in all countries.
